Online Safety Information Evening

16th October, 2024

How are Young People Accessing the Internet?

- Phones
- Laptops
- Tablets
- Online gaming

Benefits & Risks

- ✓ Easy access to a wealth of information
- ✓ Communication over distance
- ✓ Allows a wider range of viewpoints
- ✓ Supplements work/study
- ✓ Key part of the modern world

- ➢ Inappropriate/harmful content
- ➢ Predators looking to exploit vulnerable people
- ➢ Cyberbullying
- ➢ Screentime addiction
- ➢ Peer pressure

Protecting Personal Information

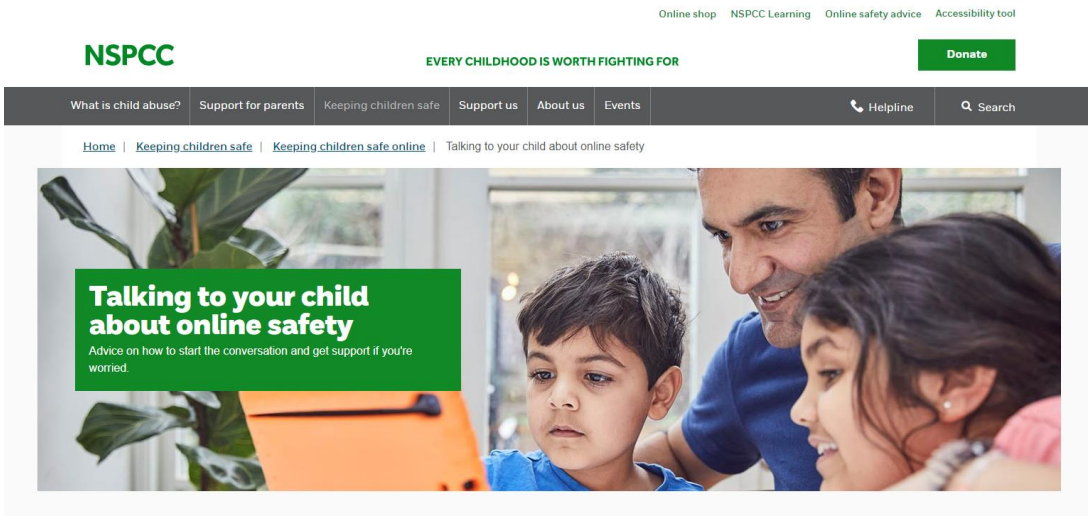
Keeping personal information private is crucial for online safety. Never share full names, addresses, or passwords with anyone online. Be cautious about the information you share on social media. Adjust privacy settings to control who can see your posts and profile. Remember that even when something appears harmless, it can still be misused by others. Practising good digital hygiene helps protect our identity.

- **What types of personal information should you keep private?**
- **How can you control who sees your posts on social media?**
- **Why is it important to practise good digital hygiene?**

What can I do?

- ✓ Talk to your child about their phone use
- ✓ Talk about the positive aspects & the dangers
- ✓ Use parental controls & safety features
- ✓ Have rules around healthy phone use
- ✓ Model healthy phone use
- ✓ Stay informed about new trends/features
- ✓ Report concerns

- No screentime between 2100 and 0800
- No phones at the meal table
- No phones in bedrooms
- Parent/carer will check phone periodically



Staying Safe While Gaming Online

Online gaming can be a fun way to connect with others, but it also has risks. Avoid sharing personal details with other players. Use anonymity features and be wary of in-game purchases. Establish rules for yourself about screen time; consider who you are interacting with online. Staying aware and educated about the gaming environment helps maintain a safe and enjoyable experience.

- **What personal details should you avoid sharing while gaming?**
- **How can you maintain privacy while gaming?**
- **What is one rule you should establish for yourself while gaming?**

School Curriculum

PSHE

Yr. 7 – Healthy phone use and communication
Yr. 8 – Online wellbeing
Yr. 9 – Drop-down days with outside agencies
Yr. 10 – Drop-down days with outside agencies
Yr. 11- Online wellbeing

Recognising and Reporting Online Threats

If you encounter online threats, such as cyberbullying or suspicious messages, it's crucial to take action. Report any harmful content to the appropriate platform, whether it's social media or a gaming site. Inform a trusted adult about the situation so they can provide guidance. Remember, you are not alone, and there are people who can help you navigate these challenges safely.

- **What should you do if you receive a suspicious message online?**
- **Who can help you if you're facing online threats?**
- **Why is it important to talk about online threats?**

Managing Tasks and Time with Online Tools

Introduction to Online Tools

In today's digital world, we have many online tools that help us manage our tasks and time more effectively.

Tools like Showbie, Class Charts, and Google Classroom are designed to assist students in keeping track of their assignments and deadlines.

Each platform offers unique features that enhance learning and organisation, making it easier for students to follow their studies and meet their deadlines.

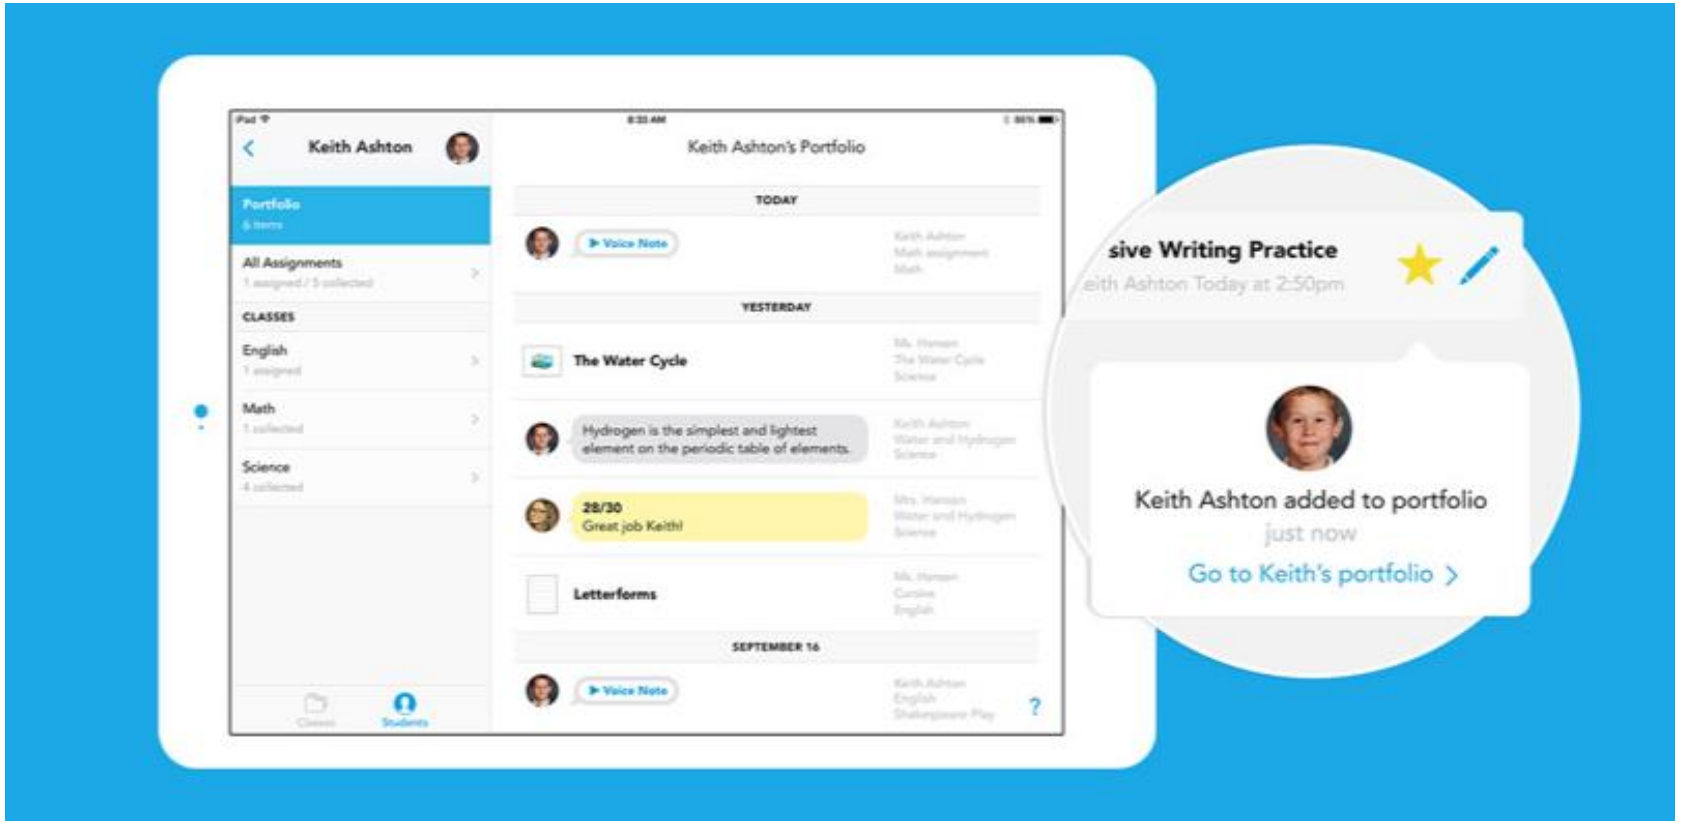
Using Showbie for Task Management

Showbie is a platform that allows students to submit assignments and receive feedback easily.

Teachers create folders for each subject to store students' work which helps them keep everything in one place. Additionally, students can comment on peers' work, which helps build a collaborative learning environment.

This tool encourages responsibility and organisation by allowing students to track submissions and due dates.

Using Showbie for Task Management



Class Charts for Planning and Tracking

Class Charts is a useful tool for monitoring students' progress and planning tasks. It allows teachers to set homework tasks and deadlines, which appear on an individual dashboard.

Students can prioritise their work and see what needs to be done at a glance. Furthermore, Class Charts can help students manage their behaviour, giving them a complete picture of how they are doing in school in terms of positives and areas where they may need to develop.

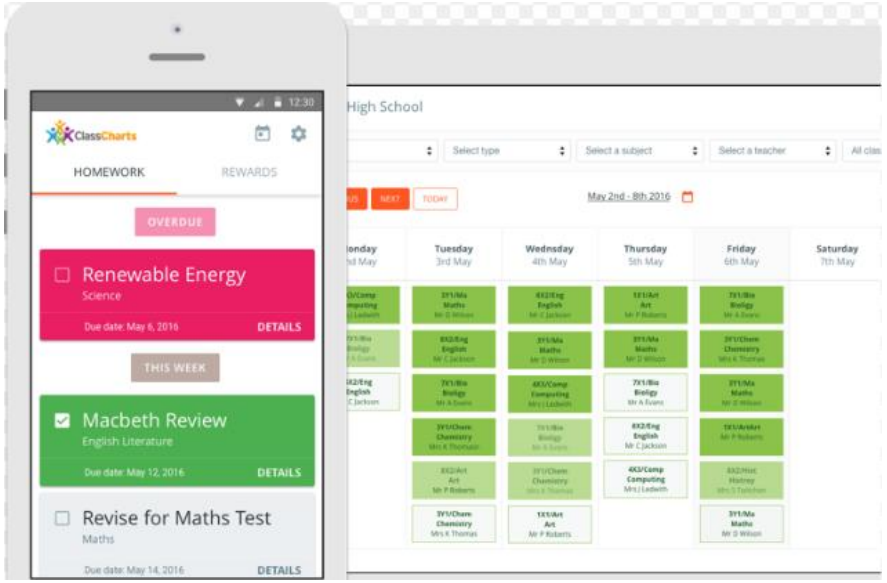
Class Charts for Planning and Tracking

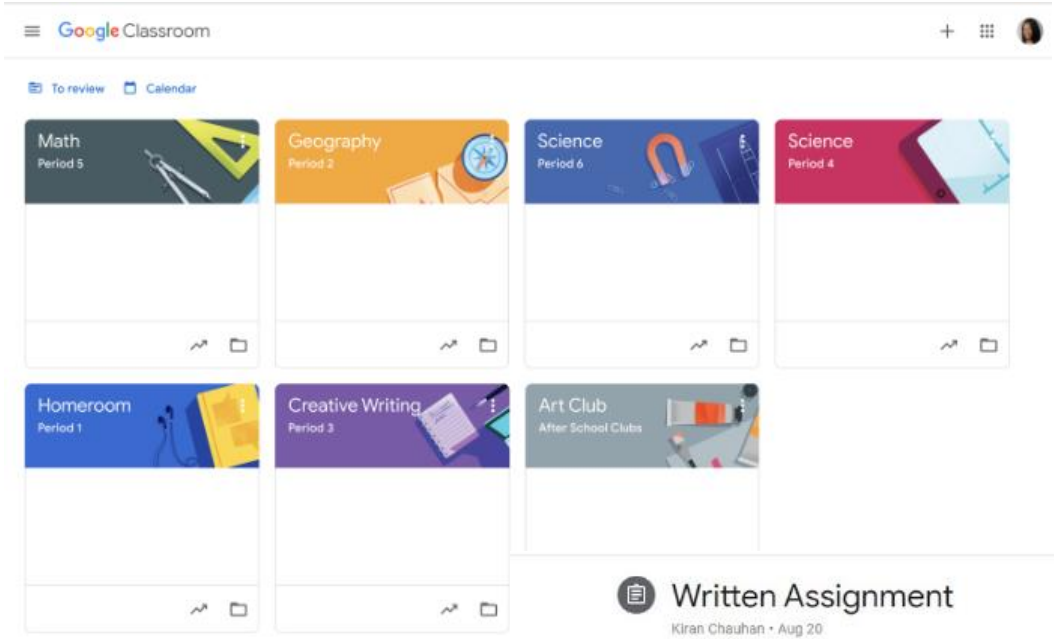


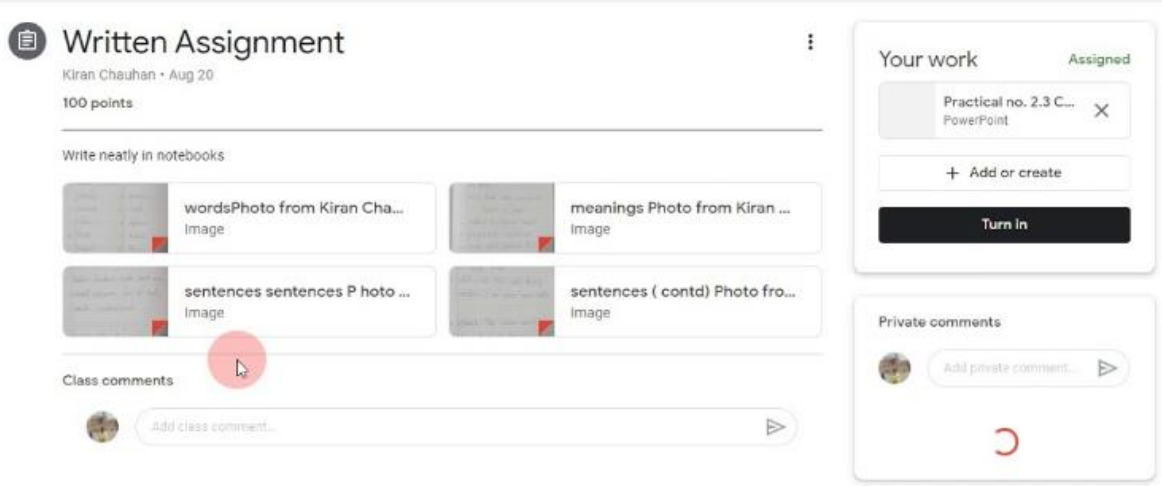
Google Classroom for Communication and Resources

Google Classroom is a fantastic tool for communication between students and their teachers. Students can access assignments, class materials, and essential announcements all in one place.

It also allows for discussions and questions, enabling students to engage with their classmates and teachers easily. This platform fosters a strong sense of community and helps you stay informed about your studies.

Google Classroom for Communication and Resources





Benefits of Using Online Tools and Family Link

Utilising online tools like Showbie, ClassCharts, and Google Classroom can greatly enhance learning and task management skills.

However, we still need to be mindful of screen time and internet access settings as mentioned previously.....
