Comments, overall feedback and recommendations going forwards:

Thank you for your resubmission. We are pleased to inform you that you have passed this section. Congratulations!

Students have put a lot of hard work in to taking the initiative on many activities with support from the school. It is powerful when students have the confidence in delivering assemblies themselves.

Having an anti-bullying team gives other students the opportunity to report it and hopefully inspire more students to come forward as they will get support from another student as well as a member of staff.

It is great to see LGBT+ celebrations within the LGBT+ calendar and spreading the word across the school.
