Dear Parent/Carer

GCSE Computing Revision - Guide for Parents

I would like to share information with you, via <http://tinyurl.com/HCCY11ComputingParents>, to enable you to support your child's progress, as computing can be a challenging subject to study, with a lot of problem solving involved.

To assist in supporting your child's revision, I have put together an 11-week revision plan for Year 11 GCSE Computing classes, which runs from 16th March until their exam in June, using Google Docs which links each topic with my Google Site/classroom and BBC Bitesize. The student plan can be viewed on the link below:

<http://tinyurl.com/Yr11ComputingRevisionPlan17>.

Many thanks for your support.

Yours faithfully

Mrs L Hocking
Computing Teacher
