Southerly Point Co-operative Multi-Academy Trust
DATA PROTECTION AND FREEDOM OF INFORMATION POLICY

1. Aims & Objectives:

1.1 The aim of this policy is to provide a set of guidelines to enable staff, parents and students to understand:

- The law regarding personal data
- How personal data should be processed, stored, archived and deleted/destroyed
- How staff, parents and students can access personal data

1.2 In addition, there is brief guidance at the end of the policy on Freedom of Information which covers other information held by schools.

1.3 The objective of the policy is to ensure that the Trust and its schools act within the requirements of the Data Protection Act 1998 when retaining and storing personal data, and when making it available to individuals, and that the process of responding to enquiries for other information is also legal under the Freedom of Information Act 2000 (in force from 1st January 2005).

2. What is Personal Information?

Personal information or data is defined as data which relates to a living individual who can be identified from that data, or other information held. It includes any expression of opinion about the individual and any indication of the intentions of the data controller or any other person in respect of the individual.

3. Data Protection Principles

The Data Protection Act 1998 establishes eight enforceable principles that must be adhered to at all times:

1. Personal data shall be processed fairly and lawfully;
2. Personal data shall be obtained only for one or more specified and lawful purposes;
3. Personal data shall be adequate, relevant and not excessive;
4. Personal data shall be accurate and where necessary, kept up to date;
5. Personal data processed for any purpose shall not be kept for longer than is necessary for that purpose or those purposes;
6. Personal data shall be processed in accordance with the rights of data subjects under the Data Protection Act 1998;
7. Personal data shall be kept secure i.e. protected by an appropriate degree of security;
8. Personal data shall not be transferred to a country or territory outside the European Economic Area, unless that country or territory ensures an adequate level of data protection.

4. Data Protection – the law:

4.1 Under the Data Protection Act 1998, and other regulating acts, access to their own personal information is a statutory right for students (if they are of an age to understand the information they request) and parents (as defined in the Education Act 1996) may also request access to their child's personal data.

4.2 Trust staff have a right of access to personal data on themselves.

4.3 Anyone has the right to question and correct inaccurate information, but this must be matters of fact, not opinions.

4.4 Personal data should always be kept securely and protected by passwords if it is electronic, and access to it should only be by those authorised to see it – confidentiality should be respected. The law also provides that personal data should not be kept longer than is required.

4.5 Third party data (information about someone other than the requesting individual) should in general only be provided with their permission.

4.6 The member of staff with overall responsibility for personal data within the Trust is Donna Bryant

5. Processing, storing, archiving and deleting personal data: guidance

5.1 Personal data and school records about students are confidential to the child. This information can be shared appropriately within the professional working of the school to enable the school to make the best educational provision for the child. The law permits such information to be shared with other educational establishments when pupils change schools.

5.2 A retention schedule for School records can be found at Appendix A.

6. Accessing personal data: guidance

6.1 A child can request access to his/her own data. The request is not charged and does not have to be in writing. Senior staff will judge whether the request is in the child's best interests, and that the child will understand the information provided. They may also wish to consider whether the request has been made under coercion.

6.2 A parent can request access to or a copy of their child's Trust records and other information held about their child. The request must be made in writing. There is no charge for such requests on behalf of the child, but there may be a charge for photocopying records – this is detailed in guidance available from the Information Commissioner. Staff should check, if a request for information is made by a parent, that no other legal obstruction (for example, a court order limiting an individual's exercise of parental responsibility) is in force.

6.3 Parents should note that all rights under the Data Protection Act to do with information about their child rest with the child as soon as they are old enough to understand these rights. This will vary from one child to another, but, as a broad guide, it is reckoned that most children will have a sufficient understanding by the age of 12. Parents are encouraged to discuss and explain any request for information with their child if they are aged 12 or over.

6.4 Separately from the Data Protection Act, The Education (Pupil Information)(England) Regulations 2005 provide a student's parent (regardless of the age of the student) with the right to view, or to have a copy of, their child's educational record at the Trust. Parents who wish to exercise this right must apply to the Trust in writing.

6.5 For educational records (unlike other personal data; see below) access must be provided within 15 Trust days, and if copies are requested, these must be supplied within 15 Trust days of payment

6.6 A member of staff can request access to their own records at no charge, but the request must be made in writing. The member of staff has the right to see their own records, and to ask for copies of the records. There is a maximum charge of £10 for copies of records.

6.7 The law requires that all requests for personal information are dealt with within 40 days of receipt except requests for educational records (see above). All requests will be acknowledged in writing on receipt, and access to records will be arranged as soon as possible. If awaiting third party consents, the Trust will arrange access to those documents already available, and notify the individual that other documents may be made available later.

6.8 In all cases, should third party information (information about another individual) be included in the information the staff will try to obtain permission to show this information to the applicant, with the exception of information provided by another member of Trust staff (or local authority staff) which is exempt from a requirement for third party consents. If third party permission is not obtained the person with overall responsibility should consider whether the information can still be released.

6.9 Personal data should always be of direct relevance to the person requesting the information. A document discussing more general concerns may not be defined as personal data.

6.10 From 1st January 2005, when the Freedom of Information Act came fully into force, a request for personal information can include unstructured as well as structured records – for example, letters, emails etc. not kept within an individual's personal files, or filed by their name, but still directly relevant to them. If these would form part of a wider record it is advisable to file these within structured records as a matter of course and to avoid excessive administrative work. These can be requested if sufficient information is provided to identify them.

- 6.11 Anyone who requests to see their personal data has the right to question the accuracy of matters of fact within the data, and to ask to have inaccurate information deleted or changed. They may also question opinions, and their comments will be recorded, but opinions do not need to be deleted or changed as a part of this process.
- 6.12 The Trust will document all requests for personal information with details of who dealt with the request, what information was provided and when, and any outcomes (letter requesting changes etc.) This will enable staff to deal with a complaint if one is made in relation to the request.

7. Fair processing of personal data: data which may be shared

- 7.1 Schools, local education authorities and the Department for Education (DfE) all hold information on students in order to run the education system, and in doing so have to follow the Data Protection Act 1998. This means, among other things, that the data held about students must only be used for specific purposes allowed by law. The Trust has a Privacy Notice which explains how personal data is used and with whom it will be shared. This Notice is contained in **Appendix 2** and is also published on school websites (policies) and on www.southerlypoint.co
- 7.2 The **Local Authority** uses information about students to carry out specific functions for which it is responsible, such as the assessment of any special educational needs the student may have. It also uses the information to derive statistics to inform decisions on (for example) the funding of schools, and to assess the performance of schools and set targets for them. The statistics are used in such a way that individual students cannot be identified from them.
- 7.3 Information on how to access personal data held by other organisations is given below.
- 7.4 Students, as data subjects, have certain rights under the Data Protection Act, including a general right of access to personal data held on them, with parents exercising this right on their behalf if they are too young to do so themselves. If your child wishes to access their personal data, or you wish to do so on their behalf, then please contact the relevant organisation in writing:
- the Trust as above;
 - the LA's Policy Officer (Information) at County Hall.

8. Access to other Trust information – Freedom of Information Act and Environmental Information Regulations

- 8.1 Under the Freedom of Information Act 2000, all schools (primary, secondary and nursery) should have a 'publication scheme' – essentially a formal list of the types of non-personal information which the Trust produces or holds, and which is readily accessible to staff, students and parents or other enquirers. See **Appendix 3**
- 8.2 The publication scheme is posted on both the school and Trust website and can be made available as a hard copy if requested.
- 8.3 Information which is not covered by the publication scheme can be requested by individuals within or outside the Trust under the Freedom of Information Act and Environmental Regulations Act.

9. Requests for information

- 9.1 The access provisions for the Freedom of Information Act came fully into force on 1st January 2005. Under this Act, all schools which receive a **written or emailed** request for information which they hold or publish are required to respond within 20 school days (or 60 working days, whichever is shorter).
- 9.2 When handling a request for information the school's data manager will ask themselves a series of questions. These are set out in **Appendix 4** as process maps.
- 9.3 A request for information may be covered by one, or all, of three information rights:
- a) Data Protection enquiries (or subject access requests) are ones where the enquirer asks to see what personal information the Trust holds about the enquirer. If the enquiry is a Data Protection request, we will follow our existing DPA guidance.

- b) Environmental Information Regulations enquiries are ones which relate to air, water, land, natural sites, built environment, flora and fauna, and health, and any decisions and activities affecting any of these. These could therefore include enquiries about recycling, phone masts, school playing fields, car parking etc. If the enquiry is about environmental information, we will follow the guidance on the ICO's website or the DEFRA website.
- c) FOI enquiries are concerned with all other information and the reasoning behind decisions and policies. The request does not have to mention the FOI Act. All requests for information that are not data protection or environmental information requests are covered by the FOI Act.

9.4 If it is a valid FOI request the Trust will provide guidance on where to access the information required eg. the website link, or details of a charge if the publication/ information is charged, or send any free information. If the item is charged the Trust does not need to provide it until the payment is received. In these cases the Trust must give the person requesting the information notice in writing (the "fees notice" **Appendix 5**) stating that a fee of the amount specified in the notice is to be charged for complying. We reserve the right to refuse to supply information where the cost of doing so exceeds the statutory maximum, currently £450

9.5 A refusal of any information requested must state the relevant exemption which has been applied or that the Trust does not hold the information, and must explain what public interest test has made if this applies.

9.6 If the information is published by another organisation (for example, Ofsted reports, DfE leaflets) the Trust can direct the enquirer to the organisation which supplied the information or publication unless it is legal and possible to provide the information direct (for example, a copy of the summary of an Ofsted report, spare copies of a DfE leaflet).

9.7 It will not be legal to photocopy a publication in its entirety and supply this to an enquirer unless the Trust owns the copyright – this is particularly important where the original publication was a charged item.

9.8 The Trust will keep the original request and note against this who dealt with the request and when the information was provided.

9.9 Any complaint about the provision of information will be dealt with under the complaints procedure. All complaints should be in writing and documented. The Publication Scheme will include information on who to contact for both enquiries and complaints.

All enquirers should be advised that they may complain to the Information Commissioner if they are unhappy with the way their request has been handled.

Except for law enforcement bodies, images will not be provided to third parties.

The potential impact on individuals' privacy has been identified and taken into account in the use of the system.

Appendix 7

Use of CCTV

1. Introduction

- 1.1 The school uses closed circuit television (CCTV) images to reduce crime and monitor the School buildings in order to provide a safe and secure environment for students, staff and visitors and to prevent the loss or damage to School property.
- 1.2 The system comprises a number of fixed and dome cameras.
- 1.3 The system does not have sound recording capability
- 1.4 The CCTV system is owned and operated by the School, the deployment of which is determined by the School's senior leadership team.
- 1.5 The introduction of, or changes to, CCTV monitoring will be subject to consultation with staff and the School community.
- 1.6 The School's CCTV Scheme is registered with the Information Commissioner under the terms of the Data protection Act 1998. The use of CCTV and the associated images and any sound records is covered by the Data Protection Act 1998. This policy outlines the School's use of CCTV and how it complies with the Act.
- 1.7 All authorised operators and employees with access to images are aware of the procedures that need to be followed when accessing the recorded images and sound. All employees are aware of the restrictions in relation to access to and disclosure of recorded images and sound.

2. Statement of Intent

- 2.1 The School complies with the Information Commissioners Office (ICO) CCTV Code of Practice to ensure it is used responsibly and safeguards both trust and confidence in its continued use. The Code of Practice is published at:

- 2.2 CCTV warning signs will be clearly and prominently placed at all external entrances to the School where coverage is. In areas where CCTV is used, the School will ensure that there are prominent signs within the CCTV ad controlled area.
- 2.3 The planning and design has endeavoured to ensure that the Scheme will give maximum effectiveness and efficiency but it is not possible to guarantee that the system will cover or detect every single incident taking place in the areas of coverage.

3 Siting the Cameras

- 3.1 Cameras will be sited so they only capture images relevant to the purposes for which they are installed (described above) and care will be taken to ensure that reasonable privacy expectations are not violated. The School will ensure that the location of equipment is carefully considered to ensure that images captured comply with the Data Protection Act.
- 3.2 The School will make every effort to position cameras so that their coverage is restricted to School premises, which may include outdoor areas.
- 3.3 CCTV will not be used in classrooms but in the main School reception and secondary entrance access points.
- 3.4 Members of staff have access to details of where CCTV cameras are situated.

4 Storage and Retention of CCTV images

- 4.1 Recorded data will not be retained for longer than is necessary. While retained, the integrity of the recordings will be maintained to ensure their evidential value and to protect the rights of the people whose images have been recorded.
- 4.2 All retained data will be stored securely.

5 Access to CCTV images

- 5.1 Access to recorded images will be restricted to those staff authorised to view them and will not be made more widely available.

6 Subject Access Request (SAR)

- 6.1 Individuals have the right to request access to CCTV footage relating to themselves under the Data Protection Act.
- 6.2 All requests should be made in writing to the Data Manager. Individuals submitting requests for access will be asked to provide sufficient information to enable the footage relating to them to be identified. For example, date, time and location.
- 6.3 The School will respond to requests within 40 calendar days of receiving the written request and fee.
- 6.4 A fee of £10 will be charged per request.
- 6.5 The School reserves the right to refuse access to CCTV footage where this would prejudice the legal rights of other individuals or jeopardise an on-going investigation.

7 Access to and Disclosure of Images to Third Parties

- 7.1 There will be no disclosure of recorded data to third parties other than to authorised personnel such as the Police and service providers to the School where these would reasonably need access to the data (e.g. investigators).
- 7.2 Requests should be made in writing to the School Data Manager.
- 7.3 The data may be used within the Trust's discipline and grievance procedures as required and will be subject to the usual confidentiality requirement of those procedures.

8 Complaints

- 8.1 Complaints and enquiries about the operation of CCTV within the School should be directed to the Data Manager in the first instance.
